

HLT Limited provides an Owner's Manual packet with each trailer. Included within the packet is a Tire registration card to be completed and mailed to an independent Company that will maintain record keeping as per NHTSA regulations. It is extremely important that Tire Registrations are completed!!! The Tire Identification is a combination of 8 – 13 letters & numbers immediately following the "DOT" on the sidewall of the tire.

Please complete the Tire Registration Card and mail – THANK YOU!
